

Pechel Industries Partenaires has completed the final close of Pechel Industries IV.

We are pleased to inform you that Pechel Industries, specialist in lower mid-market private equity investments in France, has announced the final close of Pechel Industries IV at EUR 160m on 29 February 2016 with the support of diverse and well balanced group of investors, including pension funds, insurance companies, other institutional investors and family offices.

In line with historically consistent investment strategy, the fund will continue to make majority or minority investments in lower mid-market companies (EV of EUR 20-200m) mainly in France. Target investment size will be between EUR 8-25m, however this may vary with the potential co-investment opportunities that will be offered to investors when available.

Pechel industries differentiates itself from other players in the market with its proven investment strategy of identifying high growth potential companies at inflexion points through flexible investment approach and by providing safe pair of hands to its investors through balanced and prudent approach to assets.

Demonstrating its versatile investment approach, Pechel Industries IV has already completed three new investments as of March 2016:

- PrivateSportShop: premium internet distributor of sports equipment
 - Dubbing Brothers: key player in movie and TV series dubbing in Europe and number one player in France
 - Automotor France: international automotive spare parts trading company
-
